

Damien A. Beltran

Hutto, Texas | 602-384-7785 | damienbltrn@gmail.com | [My LinkedIn](#)

Ambitious senior Computer Science major seeking Software Engineering or User Experience internships to launch a dynamic and impactful career.

EDUCATION

University Of Texas - San Antonio
Bachelor of Science in Computer Science

San Antonio, Texas
Expected Graduation December 2025

Hutto High School
High School Diploma in Engineering | (Robotics) Computer-Aided Design

Hutto, Texas
Graduated May 2019

COLLEGE ORGANIZATIONS

Adobe Student Ambassador (Recruitment Chair)
UTSA Adobe Student Ambassadors

August 2023 - Current | On-site

- Focused on recruitment opportunities incorporating open invitation workshops and tabling sessions to emphasize the impact a student makes as an ambassador for Adobe.

Junior Officer
Robotics Automation Society

August 2023 - December 2023 | On-Site

- Developed and implemented robotics workshops to promote STEM education, aligning with the organization's objectives.
- Collaborated with the Junior Officer team to design workshop curriculums, ensuring they met educational objectives and participant skill levels.

INTERNSHIP EXPERIENCE

Full-Stack Software Engineer Intern
Neuron | Start-up

October 2024 - November 2024 | Remote

- Developed Neuron's new blog page with Angular and HTML, increasing website visits by 78%.
- Integrated Firebase NoSQL Authentication with TypeScript to improve security and user access.

UX Design and Research Intern
LePal.ai | Start-up

[Letter Of Recommendation](#)

August 2024 - November 2024 | Remote

- Contributed 65 testers, or 9.29%, to research, influencing app development.
- Designed user-friendly interfaces with Figma and Sketch, informed by 105 user interviews.
- Created promotional materials and Google Forms to enhance user engagement and design decisions.

Software Engineer Fellow
Headstarter AI | Start-up

July 2024 - August 2024 | Remote

- Developed a full stack item organizer application feature that allows users to remove and add items using Material UI components.
- Supported the integration of OpenAI chat-bot in a full stack web application that tailors to recipe creations and suggestions for aspiring cooks.

SKILLS, RELEVANT COURSES, INTERESTS, PORTFOLIOS

Programming Skills: Java, Python, HTML5, CSS3, JavaScript, TypeScript, SQL, React.js, Angular.js

Technology Skills: Firebase, MySQL Server/Workbench, GitHub, Figma, Adobe Illustrator, RAG, Smolagents, LangChain, Microsoft(Excel/Word), Slack, JIRA/Trello(Agile/Scrum), LucidChart(ERD crow's foot)

Relevant Courses: Data Structures, Computer Architecture, Operating Systems, User Interfaces, Database Systems, Analysis of Algorithms, Computer Organization

Interests: Human Computer Interaction, User Research, Software Engineering
